REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1-11, wherein the claimed invention comprises wherein the wavelength selective filter has a light transmission characteristic providing more that predetermined ratio of a change in optical transmittance to a change in wavelength of the incident light in a wavelength region and a wavelength variation suppressing mechanism which is configured to suppress the wavelength in accordance with a detection result obtained by said wavelength variation detector, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
